■ Capital	¥10,000,000		
■ Number of employees	25		
■ Business Year	Every year from July 1st to June 30th		

We have been directly importing henna treatment from India since 1987.

Our hope is to stay beautiful using hair coloring and perms. We also want to keep our hair looking beautiful by reducing damage. However, these two conflicting goals have always posed a problem for beauty. Henna is the answer, the way to achieve both goals.

When we started distributing henna in 1987, we visited henna fields in India. The sight of henna growing beautifully and strong on the vast land was all it took to convince us. Since then we have visited India many more times, where we have seen the ingredients with our own

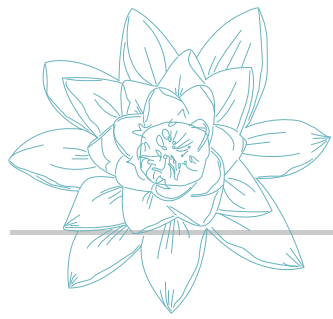

eyes. We have also touched and used these ingredients ourselves. By staying in touch with the people who grow henna, we have been able to commercialize henna with confidence. It has been more than 30 years since the founding of Japan Henna. At present, about seven hundred thousand people use our products a year.

‘Henna’ is Japan Henna’ s main product.

We also focus on various support products that are essential to beautiful hair.

JAPAN HENNA

Company Background

September, 1987
